

BENCH TOP MACHINE

**S1101-F1
(220V)**

**S1101-B1
(110V)**

Ideal for small to 100 x 150mm cuts in thin tubes and structural sections, the S1101 is a machine designed for maintenance workshops and metalworking. Its measurements and low weight allow for easy and safe transportation. In addition, its versatility ensures a range of cutting angles, a unique feature for a machine this size.

FEATURES

- Manufactured with an injected aluminium bow for maximum strength and durability
- Compact and sturdy base
- Manual vice with quick grip system
- Extremely robust, and yet lightweight at only 23kg
- Single phase motor
- Gravity feed, three feed pressure options
- Removable swarf box
- Easily accessible emergency stop button
- Automatic stop at the end of the cut
- Quick blade tensioning system
- Cut at 0 to 45 degree angles
- Dry cut, without lubrication
- CE compliant

Optional Extra

S1101 Bench
Sold Separately

CAPACITIES (mm)		
0°	100	100 x 150
45°	60	60 x 100

For thin-wall pipes and structural profiles only.
